## Summary

Software engineering student at Blekinge Institute of Technology (BTH) with experience in C++, Python, web development, and automation. Developed a portfolio of personal and academic projects available on [GitHub](#).

## Technical Skills

- **Programming Languages:** C++, Python, JavaScript, HTML/CSS
- **Technologies:** Node, SFML, MySQL, Git/GitHub, React
- **Skills:** OOP, Web Development, Automation, Linux, Git, Backend
- **Languages Spoken:** Fluent in Swedish, English, Spanish, and Romanian (long story)

## Projects

**Personal & Academic Projects** (Details on [GitHub](#))

- **Aristotle's Puzzle Solver (C++):** Optimized C++ solver for Aristotle's Puzzle, reducing runtime from hours to under a second.
- **Web Application (Node JS):** Self-hosted data management app with Node JS and MySQL. ([Live](#))
- **Python Automation Scripts:** Created Python scripts for data scraping and file organization.
- **Portfolio Website:** Built a portfolio using HTML/CSS and JavaScript. ([Live](#))

## Education

**Bachelor's Degree in Software Engineering (Ongoing)**

*Blekinge Institute of Technology (BTH) — Aug 2023 – Present*

**Python Programming**

*Self-taught — Jan 2022 – May 2022*

## Professional Experience

**Freelancer (Programming & Code Review)**

*Fiverr & Upwork — July 2022 – Present*

- Python code review, automation tasks, and web development.

**CEO & Marketing Lead**

*Ocleon AB — Dec 2021 – Jul 2022*

- Led a small team of developers and managed client acquisition.

**Note-taking Assistant and Math Tutor**

*Various — 2019 – Ongoing*

- Provided note-taking support to students with learning disabilities.
- Tutored younger students in mathematics.
